

BRUNCH & CAKE

IN GRANDMOTHERS WE TRUST

We are proudly serving brunch classics with a fun twist. Our presentation is great, but the products we use are even better. Everything you'll eat here is handmade and baked with love. If it is here, it's good for you :)

PHILOSOPHY

Do everything with the utmost love, respect and passion to be completely honest with the way of understanding life. We believe in our grandmother's philosophy: make absolutely everything by hand, slowly and with care.

About our food

All our breads, cakes and baked products are made by hand daily with no refined sugars and with stone-ground flours. We sweeten only using dates, banana or apple sauce. As simple as that. That's how we make our Ferrero Rawcher :)

All our cupcakes, cakes, muffins and cookie doughs are 100% vegan with no added sugars or syrups.

Did you know that 90% of the Açaí on the market has added sugar and/or glucose? Not to mention vegetable milks. Ours is 100% pure and organic, just like our vegetable drinks and butters.

We don't like labels, we love including everyone! We have very healthy dishes but also dishes to enjoy in a big way. Because it's about having a good time and eating what you want, but ALWAYS knowing that what you are eating is natural, with no additives.

Want to go crazy with a slice of cake? Perfect! Our frosting has sugar, but you'll be eating organic, unrefined sugar. At the end of the day, all we want is for you to eat natural food, nothing more.

Here, what you'll be eating is quality. Love it or not, you won't be consuming hormones, additives or flavor-enhancers that make everything seem better while hurting you inside.

We love Insta! We love making our dishes look better EVERY day, but quality comes first, then we make it beautiful.

We partner with leading suppliers, sourcing the best possible ingredients - people who love what they do, for whom good food is life.

Good food is my life.
